Put your search into a question.

Example: What is science education like in the Middle East?

Pull out the keywords or important words:

“science education”

“Middle East”

Search databases for these keyword phrases in quotes with “and” in between to get fewer, better results.

Go to the Articles/Databases tab on the Post Foundation LibGuide and select the following databases:

1. ACADEMIC SEARCH COMPLETE DATABASE
2. Results

3. PROQUEST DATABASES
4. Results
