Finding Articles for Research

Information Literacy LibGuide  http://libguides.qu.edu.qa/informationliteracy

Put your search into a question.

Example: What is science education like in the Middle East?

Pull out the keywords or important words:

“science education”

“Middle East”

Search databases for these keyword phrases in quotes with “and” in between to get fewer, better results.

Go to the Articles/Databases tab on the Information Literacy LibGuide and select the following databases:

1. ACADEMIC SEARCH COMPLETE DATABASE

   Type in keyword phrase with "and" in between phrases
   Type in keyword phrase with "and" in between phrases
   Mark for Full Text
   Select years
2. **Results**

![Image of a database search results page showing relevant articles on Middle East and science education.]

- **Results**
- **Folder where selected articles can be emailed, printed, or saved to a file**
- **Click here for Full Text pdf**
- **Add selected articles to a folder**
- **If too many results, decrease dates or pick one type of journal**

3. **PROQUEST DATABASES**

![Image of a database search interface with search terms entered for "science education" and "Middle East."]
